

Australian Government

2022 INTERNSHIP PROJECTS

Indicative only

1. **COUNTRY PROGRAMS:** Working to bring together information from existing sources to support improved health security decision-making and planning by DFAT desks and posts.
2. **HEALTH WORKFORCE:** Quantifying the impact of field epidemiology training programs in the Pacific.
3. **DISABILITY INCLUSION:** Ensuring the inclusion of people with disabilities in outbreak prevention, detection and response.
4. **EPIDEMIOLOGY:** Monitoring of non-COVID 19 programming to identify trends and minimise the reversal of gains in other disease areas.
5. **ONE HEALTH:** Undertaking a thematic case study of One Health to document (1) what the Health Security Initiative is currently doing; and (2) identify scope for greater integration of One Health across the Health Security Initiative.
